INFORMATION SERVICES INC

MAKE IT SIMPLE.

www.restech.net

By carefully studying a client's business, Restech advises and implements solid technology strategies while reducing the cost of technology through superior architecture, design, and upkeep.

In business since 1992, Restech adds value to clients of all sizes. From 10 to 10,000 employees our company principles have always been the same: deliver enterprise solutions scaled to the customers need.

Clients with full I.T. operations leverage Restech to advise, educate, and perform specialty work. Smaller clients can rely solely on Restech for complete technology support.

Restech has Four Core Competencies

- Long Life Cycle Technology Infrastructure
- Disaster Recovery
- Managed Services
- Voice over IP (VoIP) and Collaboration Services
